Subject : Softing IT Networks WireXpert™ Approval

Dear Philippe and Konstantin,

Schneider Electric is pleased to announce the approval of the WireXpert series. This approval is based upon evaluation of the WireXpert versus network analyzer by our internal laboratory.

WireXpert is approved for use in both Permanent Link and Channel certification testing with all of our Category 6A/Class EA, Category 6/Class E and Category 5e/Class D system warranties.

The following configuration of WireXpert is required.

WireXpert unit software version 7.x or higher
eXport™ software version 7.X or higher

| | |
|---|--|
| Channel testing for Category 6 A/Class EA, Category 6/Class E and Category 5e/Class D | WX_AD_6ACH2 - pair of CAT 6 A channel adapters |
| Permanent Link testing for Category 6A/Class EA, Category 6/Class E and Category 5e/Class D | WX_AD_6ALKIT2 – pair of CAT 6A permanent link kits: each consisting of a CAT 6A permanent link adapter WX_AD_6ALINK and a Permanent Link test cord WX_AC_6ALCORD |

We look forward to a continued cooperation and future opportunities to evaluate Softing IT Networks products that can be used to test and certify our cabling installations on the field.

Sincerely Regards,

Sébastien Vitrant
