

## Battery will be provided

Due to delivery restraints during the global Corona-pandemic, the Konftel 55Wx in this box does not have the battery that is normally included. Despite that, we have chosen to ship the product to you and are preparing to provide batteries starting in July without any additional cost.

For many use-cases, the Konftel 55Wx works perfectly without the battery. Use the included AC-adapter to power the device. The only limitation regards the all wireless use-case, where the Konftel 55Wx runs on battery and is connected via Bluetooth to the communication device. Our advice is that you plug in the AC-adapter also when the Konftel 55Wx is connected via USB to a computer.

### REQUEST FOR BATTERY!

We need to ask you for a simple battery request via e-mail, to be able to service you in this situation. Shipments will start in July 2020.

Include these details in your e-mail: **product serial number** (found on the label under the product), **your contact details** and **post delivery address**.

Send the e-mail to: [replacement@konftel.com](mailto:replacement@konftel.com)

For any questions or servicing needs, you can also call us.
